

FIVE DAYS LATER FROM EUROPE.

Arrival of the New-York and the Belgian.
Believe of another Steamer by the Niagara—Capture of the Ship Southern Rights by the Florida—Captain Stevens Again Absent—Continued Meetings in the Commercial Circles of England—Progress of the Peace Conference of Vienna.

FATHER POINT, Monday, Oct. 24, 1864.

The steamship Belgian, from Liverpool on the 12th, via Queenstown on the 14th inst., arrived here at 10:30 o'clock this morning. Her dates are five days later than those already received.

The steamship Hibernian, from Quebec, arrived at Liverpool on the 11th inst.

The steamship Siron, from New-York, arrived at Liverpool on the 11th inst.

The steamship City of London reached Queenstown on the night of the 12th inst.

Great Britain.

Commercial affairs continued to be the principal topic of discussion.

The depression in commercial circles shows no diminution; but, especially in cotton, is almost at a standstill, and prices continue to fall.

The additional failures which have taken place, include Louis Sizaire, large cotton dealer in Liverpool, with liabilities amounting to three hundred and twenty thousand pounds sterling; Messrs. Hume, Murray & Co., cotton brokers in Liverpool, with considerable liability; and Messrs. H. & C. Co., merchants in London, whose liabilities are small.

The demand for discount at the Bank of England on the 14th inst. showed great subsidence, and there was consequently more staleness in the funds. The minimum rate of the bank was nine per cent.

The half monthly statement on the Confederate loan exhibits a strange anomaly, the price in London being £3, in Manchester £5, while at Liverpool it is £1, the extent of advance speculative, having advanced to £4.

The London Times has an editorial on the address with 30,000 signatures, recently sent to Gov. Seymour from England, entreating the North to make peace with the South.

The Times says the address signed by these 300,000 gentlemen can effect just nothing, and thinks the only possible solution of the question is continued war. America has commenced the very ordeal of war which settled Europe on its present basis, and terrible as is the process, the Times cannot doubt that America will be the better for it in the end.

France.

The Patriotes says that Russia has given its adhesion to the French policy on the Roman question.

The Paris Bourne was dull and lower on the 14th inst., and the Rentes closed at 105, 1/2.

La France says that the insurrection in Algeria is spreading, and the natives there appear to be obeying a summons to a holy war.

Austria.

The report of a ministerial crisis are considered premature, but it is believed that Count Reichenberg will tender his resignation on account of complications in the foreign policy.

The Spanish Question.

At the Peace Conference a compromise is said to have been effected on the financial question. Minor negotiations were also arranged, and there only remains now the drawing up of the Treaty of Peace.

The Paris correspondent of The London Times says that there are good grounds for believing that representations have been made at Vienna by Austria, England and France, with respect to the movements of the pretensions of the Austrian and Prussian Monarchs, inasmuch as the blockade during the war.

The Paris paper professes to know that concessions have been made to the Danes in the Conference, and that a larger portion of North Schleswig than expected will be incorporated with Jutland.

Prussia.

A meeting between the King of Prussia and Emperor of Russia was about to take place at Darmstadt.

Turkey.

A financial crisis is reported at Constantinople. Interest had been raised to 14 percent, and money was not obtainable at that.

New-Zealand.

It is officially announced that the New-Zelanders have unconditionally submitted to the Queen's authority, and placed their lands at the Governor's disposal. They were permitted to return to their lands, a small portion of which only will be forfeited.

Latvia—Via Liverpool.

LONDON, Oct. 14, 1864.—There is a better tone in the money market, and the funds are firm, but the business in commercial funds continues.

The United States ship, a Spanish steamer, seized under suspicion of being a blockade-runner.

The ship Southern Rights of Richmond, Maine, was captured August 22 by the pirate Florida, and released under bonds.

Commercial Intelligence.

A telegram from Madrid of Oct. 9 says: The Central Committee of the Progresista Party have sent in their resignations, on account of their aversion from politics in the approaching elections, no longer appearing necessary.

A general meeting of the Progresista Party will take place on the 10th.

Queen Christina will leave for the Asturias on the 12th.

Prussia.

A telegram from Berlin of Oct. 10 says: The Crown Prince and Princess of Prussia have abandoned their intention of visiting Nuremberg. They will proceed to Switzerland, and will return to Berlin on Dec. 10.

Herr von BISMARCK is expected here from Franco on Friday.

The Franco-Italian Convention.

The Paris Constitutionnel, in an article signed by M. LIMAUX, opposes the views of extreme parties, who see in the Convention the fall of the temporal power and the abandonment of Rome. M. LIMAUX says: The Convention will be executed in Italy and Spain.

By the New-York.

The steamship New-York, from Southampton on the 10th of October, arrived here yesterday with three days' later news from Europe.

Great Britain.

The Alaria at Queenstown, Oct. 9, at 6 a.m. The Industry, from New-York, arrived at Liverpool Oct. 10.

The Times says: Mr. W. S. GROVES, a merchant in London, committed suicide last week. The evidence at the inquest showed that he had sustained very severe losses in connection with America, and his partner being at present in New-York, while alone here he had profited upon his mind in a most distressing manner. His principal transactions were on the Comstock.

The Brazil and River Plate Mail says: "Owing to the war in America several wealthy Southern planters possess estates in this country; some have already fled, and several more are about to do so. A number of planters from South Carolina are expected to arrive here with a capital of \$50,000,000; all these parties intend to settle in South Africa. In a few years' time the lands in that province will be worth as much, if not more than those of Buenos Ayres."

The Times says: The Lord Chancellor and the Commissioners who will be appointed by her Majesty assessable in the House of Lords on Tuesday next, the 13th of November, to meet in Parliament until November 11. There seems to be no apprehension in the public mind, and enormous profits have been expected in general after the expiration of the duration of the present war. It was "began and ended on the 2nd of May, 1861," and will not legally expire until the close of next year. According to the usual practice, the new Parliament will sit next Spring, and the new Parliament must be adjourned to February or March for a short time, and then again to February or March for the transaction of general business.

The Times, in a lead on the intelligence by the

Arabia says: At this moment all the Northern accounts must be received very cautiously. Every incident in the field is, if possible, made to serve the purpose of the Government party in the Presidential election, and if the brightest account is believed for a few hours, the object is ruined.

The Observer says: There is every probability that MILLER will win his trial at the October sessions of the Central Criminal Court, to open on the 24th inst., as in his defense he will call the solicitor of the Solictor to the Treasury, the solicitor for the prisoner has that a will be quite ready for his defense by that time. The prosecution will be conducted by the Attorney General, Mr. GIFFORD, and Mr. BREWER on behalf of the town, Mr. SERGEANT TAYLOR, formerly retained, with Mr. METCALFE, for the defense. MILLER is destined to be tried by a jury of half Englishmen and half foreigners, will, if it is understood, avail himself of the privilege. It is currently rumored that such a composition of the jury is on the grounds upon which he places his reliance for acquittal.

The Observer says: Lord DUNFERMLINE will probably succeed Lord WORCESTER as Under-Secretary of State for India.

The London Star says: Paragraphs have appeared in several papers stating that it had been definitely settled that the trial of MILLER would take place at the next sessions of the Central Criminal Court. This is incorrect.
